Title IX Data for 2016-17**

The California Department of Education recently issued its 2015-16 Education Equity program guidance, a document outlining what is required from LEAs. This instrument is also used by the CDE to monitor an LEA's compliance with laws on equity in the treatment of students.

"The LEA ensures that each public elementary, secondary school, and charter school offering competitive athletics shall make all of the following information publicly available at the end of the school year and shall reflect the total number of players on a team roster on the first official day of team competition: total enrollment of the school, classified by gender; number of pupils enrolled at the school who participate in competitive athletics, classified by gender; number of boys' and girls' teams, classified by sport and competition level."

	Enrollment		Students Participating in Competitive Sports	
	Number	Percentage	Number	Percentage
Male	116	54		
Female	98	46		
Total	214	100		

The total enrollment number is based on the data that was submitted to the California Department of Education on Census Day.
